GAIA

- Scientific satellite to map of 1 billion stars of our galaxy

- Dutch Space won the GAIA Real-Time Simulator contract

- GAIA RTS is based on EuroSim

- Astrium Toulouse asked for TSP support in EuroSim

EuroSim - European Real-time Operations Simulator

- Hard real-time generic simulator infrastructure

- Applied in the following projects:
  - European Robotic Arm
  - Automated Transfer Vehicle
  - Herschel-Planck

- Supports various simulation model standards

- Support various hardware interfaces

- Runs on a variety of platforms

- Is very user-friendly

DEMO
